## "WHY PLAY JEW'S HARP IN THE 21<sup>ST</sup> CENTURY?"

From 27 to 30 July 2022, the world's only Jew's Harp Festival will take place at the ufaFabrik in Berlin.

Over four days, more than 100 musicians from over 30 cultures and countries will bring the ancient tradition of Jew's Harp-playing to Berlin.

Together with the International Jew's Harp Society, the Kesselhaus at the Kulturbrauerei and the ufaFabrik, we would like to give this instrument, which is largely unknown in Germany, a unique space. The sounds of this small instrument are mysterious, sometimes meditative, sometimes energetic. Electrically amplified, the playing even seems almost like techno and at the latest then you know why Berlin is the right place for this festival. This Jew's Harp rave will thrill everyone. In addition to numerous concerts and sessions on the open-air stage of the ufaFabrik, the interested public can also try their hand at playing the Jew's Harp themselves in workshops and purchase their own instrument at the market. In July 2022, the ufaFabrik will become the ultimate Jew's Harp meeting place: for everyone who already plays the "Jew's Harp" or is curious about it!

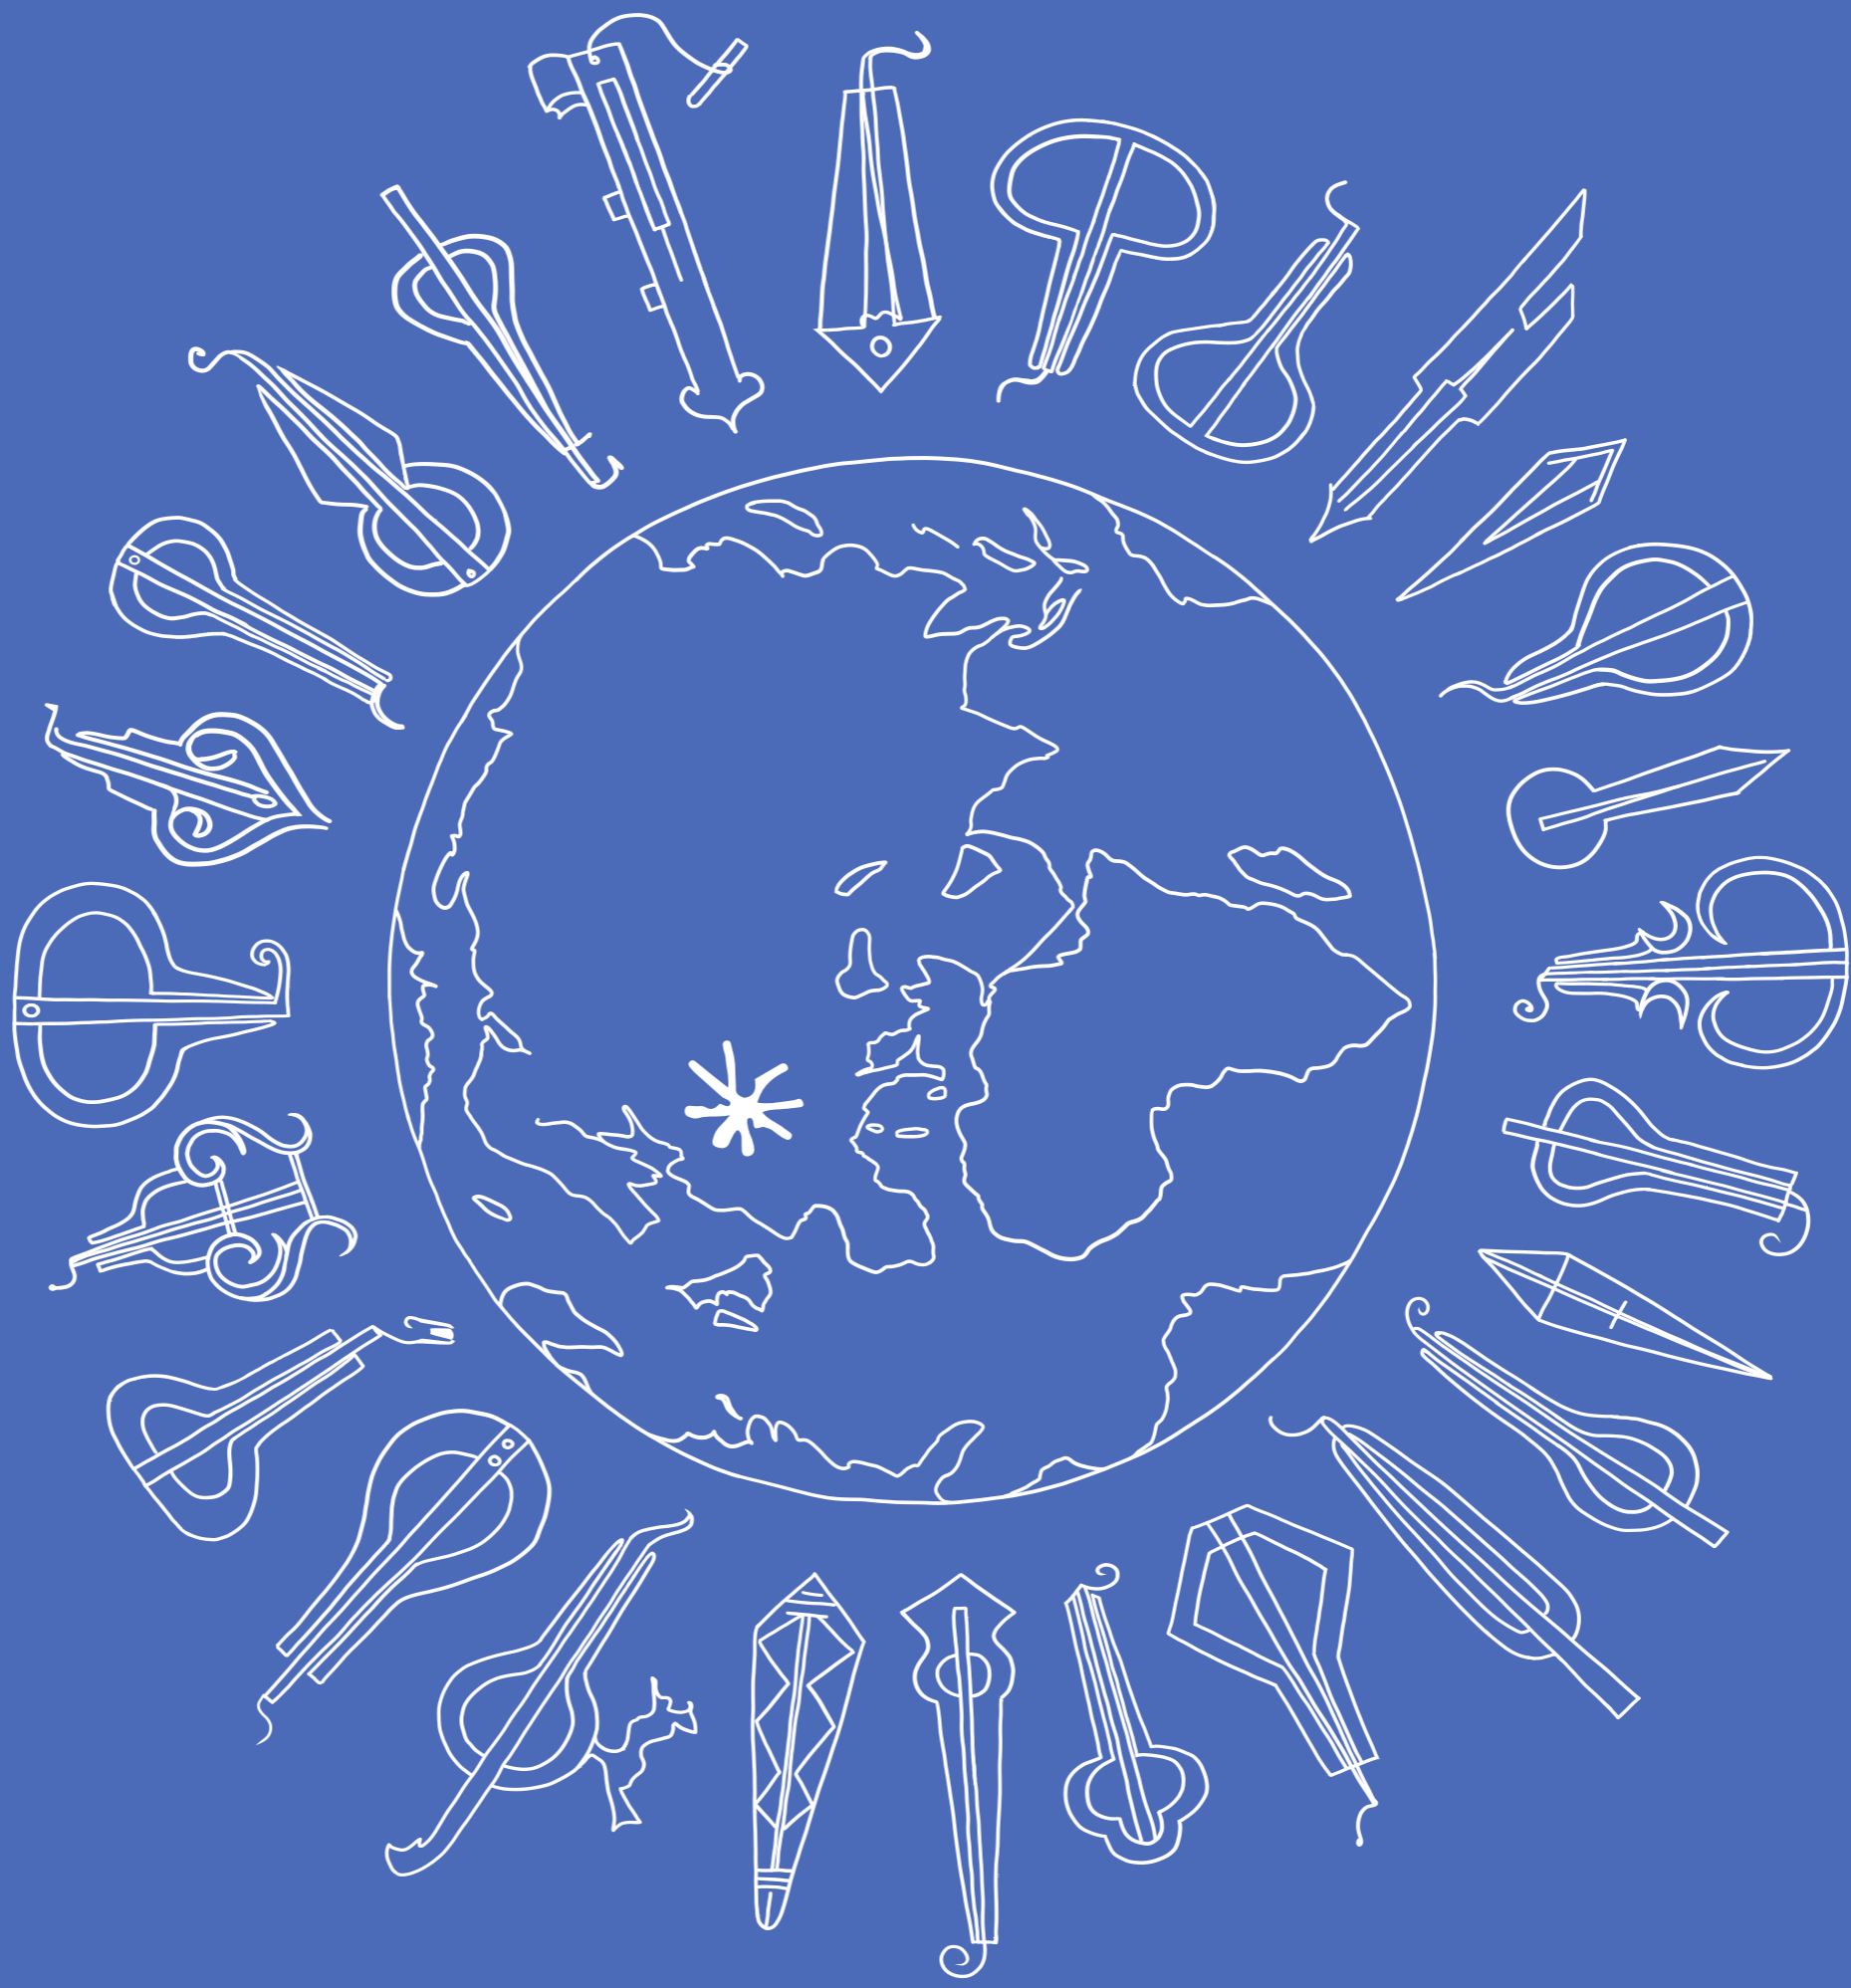

*Jew's Harp Festival & Congress is a cooperation between the IJHS-International Jew's Harp Society, the Kesselhaus at der Kulturbrauerei and the ufaFabrik.*
