

Media Economics and Politics [Media Economics and Politics]

Learning Outcomes	Upon completion of the module, students will be able to...	Level ¹
	L1 Explain key terms and content of media politics and media economics from a variety of academic perspectives.	2
	L2 Understand the transformation in media-political and media economic interrelations due to changed social and technological framework conditions.	2
	L3 Develop an in-depth understanding of the German media system - institutional foundations, statutory and other framework conditions.	2
	L4 Differentiate between media systems and conditions in different countries and cultures.	4
	L5 Interpret relevant media-political and media economic processes, outcomes, questions and decisions as part of the advancing digital revolution..	5
	L6 Apply acquired knowledge to teaching projects, the internship semester as well as the Bachelor thesis.	3
Course Content	<ul style="list-style-type: none"> • Basic terms and theories surrounding media politics and media economics. • Discourse and measures that establish a regulatory framework (laws, regulations, guidelines) for journalistic media and its room for manoeuvre. • Mapping out actors whose interests and power constellations lie in the field of media politics and media economy. • Media-political and economic imperatives in the European and international media environment. • Press policy, broadcasting policy, telecommunications policy, film policy. • European and international media politics and economics. • Network policy and internet governance • Ownership structures and concentration ratios in globalised media politics • Media products and their markets • The economic dimension of the digital developments • Advertising circulation spiral, first-copy costs or the focus on national media markets • Concentration developments in the international media markets 	
General Objectives of all BA Programmes	Description	Relevance ²
	Understanding the relationships and challenges of a multicultural, mobile and digital economy and society	5
	The ability to grasp complex tasks and develop creative and sustainable solutions	3
	Self-reflection and judgment to continually grow personally in a dynamic international work environment	1

¹ Skala 1-6: 1 = Erinnern (Wissen), 2 = Verstehen, 3 = Anwenden, 4 = Analysieren, 5 = Beurteilen, 6 = (Er-)Schaffen

² Skala 1-6: 1 = Kompetenzform spielt eine ganz untergeordnete Rolle, 6 = Kompetenzform spielt eine herausragende Rolle

Objectives of the specific Study Programme	Description	Relevance
	Awareness of the societal role of the media and critical reflection on the economic and political characteristics of the media and communications industry in times of digital transformation	5
	Advanced management skills and the ability to apply the current international state of research in economics and communication studies	1
	Strong entrepreneurial spirit combined with innovation orientation and the willingness to take on social responsibility as a media or communication manager	3
Competencies	Type of competency Formulation and classification of the competencies according to the document "Instructions for writing competency-oriented module descriptions"	Role ²
	K1: Academic knowledge	1
	K2: Knowledge in professional practice	3
	K3: Methodological skills (research)	1
	K4: Methodological skills (professional practice)	3
	K5: Social skills	1
	K6: Personal skills (e.g. reflection, organisation)	1
Module Length	1 semester	
When Offered	At least once per academic year	
ECTS Credits	5	
Prerequisites/ Recommendations	Recommendation: Basic knowledge in the area of political science and business administration	
Total Workload	150 h [45 CH / 105 SH]	
Study Semester	2 [recommended semester for part-time students: 4]	
Type of Module	Compulsory module	
Applicable to	Also in the study programme Journalism References to: Media and communications theories Current issues in media management Basics of business administration	
Teaching Language	German [English version available]	
Type of Assessment	Written exam	
Teaching and Learning Methods	Lecture [2 course units] / Seminar [1 course unit]	
Implementation form	Lecture: Scenario B – Expert Session Seminar: Scenario D – Campus Sessions + Expert Session
